CONNECTION

BROWN OUT

The only non-linen inclusion of the Liaison Collection, Connection features luxurious Egyptian cotton in a small scale geometric styling reminiscent of AH favorite, Tessera, but with greater contrast of matte-sheen and high-low relief. Aptly named Brown Out features beige textural surface yarns juxtaposed against a sleek espresso ground. Overall glitz and glimmer suggest sophistication while nubby surface yarns connote casual comfort for this upholstery fabric suited to both residential and contract applications.
