CARMEN CHENILLE

PLANTAIN

Dazzling Carmen Chenille is by far the boldest color infusion Calvin Fabrics has experienced to date. This low pile, contract-rated upholstery fabric answers the call for simple, solid chenille. A subtle textural presence and delicate nuances of color only visible upon close inspection add an element of richness and interest. One prominent color establishes the overall color read for each item, while two other colors employed in warp and fill add pinpoints of depth or contrast. Plantain combines an inviting shade of sand with flecks of tan and cream.
