to NeoCon®

HOK's Prodigal Son Returns to NYC

5 Steps to a Green Team

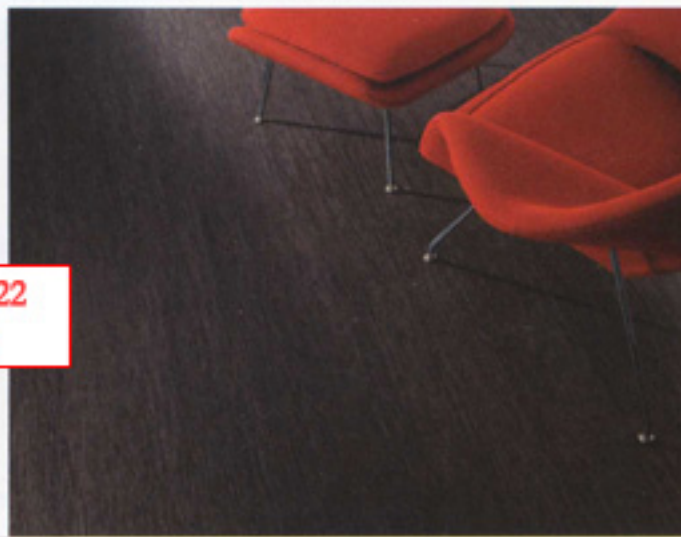

2011 NeoCon Preview

Tutti
from
**Calvin
Fabrics**, a
multi-use cloth
hailing from New
Zealand, unifies a soft woollen
texture with black wool accent yarns to form a random criss-cross
pattern. Sturdy but fluid, with an uncharacteristically soft wool hand,
Tutti is resilient enough for contract upholstery use but is also well
suited for drapery applications.

infrastructure. **Parterre's** latest luxury vinyl flooring featuring wavy good looks, is part of the company's city-inspired FusedToo collection. Infrastructure delivers a unique linear design that offers a striking accent for floors in any commercial environment, especially corporate spaces, and it promises to coordinate effortlessly with other Parterre products. It is available in a 6- by 36-inch plank size, and in four colors, including Glass, Steel, Concrete and Wire.

Inspired by the natural stone from which it derives its name, **Bluestone** by **Crossville** features a field of soft earthen tones, enhanced by fossil-like impressions and the subtle pearlescence of embedded shells. In both natural and semi-polished finishes, it imparts a classic elegance to any space. Bluestone contains a minimum of 20 percent recycled content, and is available in four colorways and a variety of sizes.

Exhibit by **National Office Furniture** removes barriers and transforms walls into purposeful design elements offering a variety of solutions for all workplace, collaborative and social environments. Its efficient use of wall space and various inserts, such as slat walls and work tools, marker boards and tack boards, serve as an organizational coach, brainstormer or impromptu art gallery. Exhibit creates a lighter, airier aesthetic while providing easy access to electrical and data.
