Above: The new master suite is a peaceful, boutique-hotel-like retreat with sophisticated style, generous space and commanding views of the pool and gardens. Contemporary yet soft, the suite has ample closet space, a sitting area and a spa-like bathroom. The custom headboard is covered in luxurious mohair that contrasts with the silk and etched-velvet throw pillows. Paired night tables, custom silk pendants and custom club chairs (not shown) provide symmetry and balance.

Left: An antiqued wood statue of the Asian goddess and protector Kwan Yin presides over a guest room the homeowners' daughter uses when she visits. The serene space features a bed with head and footboard upholstered in pinkish beige wool sateen, grayish purple Ultrasuede chairs and soft woven silk drapes.
