SEVILLE

ICE BLUE

A low profile architectural chenille, Seville offers a pleasing hand and neat grid-like appearance for residential upholstery application. The characteristic glisten of rayon is more a staple than an accent in this highly textural fabric. Soft matte chenille in muted slate blue alternates with tightly spun rayon boucle in tan and glistening strands of white to create a variegation of both color and sheen in Ice Blue.

WIDTH:	56"
CONTENT:	53% RAYON 47% COTTON
FINISH:	ACRYLIC-BACKED
