**SEVILLE**

**BUTTER CREAM**

A low profile architectural chenille, Seville offers a pleasing hand and neat grid-like appearance for residential upholstery application. The characteristic glisten of rayon is more a staple than an accent in this highly textural fabric. Soft matte chenille in gunmetal green alternates with tightly spun rayon boucle in tan against thick gauge cotton warp yarns in black to create a variegation of both color and sheen for Winter Sage.

<b>WIDTH:</b>	56"
